Huron Valley Iris Gardens

I will try to give correspondence prompt and careful attention, and ask that name and address be written plainly, or printed if necessary.

Payment must accompany order, and no order for less than \$2.00 will be accepted.

Iris

In presenting these lists of iris, I believe I am offering from one of the truly complete collections in this country.

The iris without question is the most satisfactory perennial plant in cultivation, either in a few beds or borders of few varieties, or where the garden is devoted entirely to them.

They thrive in almost any situation and under trying conditions, dry banks to marshy places.

They are tall, 5 to 6 ft.; they are

dwarf 3 to 12 inches with exception of 2 or 3 they demand sunshine and good drainage.

The range of color is very wide; every tone and shade except the shocking red of the salvia.

The foliage (glaucous blue green) of the pallidas are extremely ornamental.

The blooming season is a long one; March to August in the temperate zone.

What more could a garden lover wish?

Huron Valley Seedlings

This list introduces the H. V. seedlings, which I think are distinct and of merit. Worthy of a place in all select gardens.

The dwarf (Silver Elf) is a gem for the rock garden or border. Guileless is very fine for general garden effect.

Dwarf Bearded

Huron Imp. A magnificent blue black dwarf 9 in., large flowers and very free, 75c.

Placid, 10 in. S., Apricot, stained yellow and light purple, F. Blade, dark purple edged yellow, Haft: conspicuous, yellow veined brown. Beards yellow, \$1.00.

Quaint. S., Soft drab tones, F., Blade, dusky purple; Haft: yellow ground veined purple, styles, cream, crests and keel purple, 10 in., \$1.00.

Reflection. A beautiful dwarf. S., Grayblue edged faint yellow; F., same color, Haft, Olive white veined purplish brown, \$1.00.

Silver Elf. This I believe to be the finest light colored dwarf in cultivation. S., pure white with a flame colored blotch at base of petals; F., Gray, delicately lined with light blue. The white of

stems is absolutely a pure white, \$2.00.

Zobeida. S., dark smokey lavender; F., dark velvety purple. There is a bloom on the petals, \$1.00.

Endymion. 10 in. A velvety dark garnet self, 50c.

Tall Bearded

Ghandi. The latest to bloom in this section, S., medium, dark shade of blue gray; F., round flaring, a dark rich velvety purple, shading lighter at margin, Haft. whitish ground, coffee brown at sides; the veining is so wide and close together that the ground can hardly be seen. Styles, lavender gray. red, darker, \$5.00.

Lady Lillian. The most perfect pink iris to date. All petals the exact shade of the Caroline Testout rose, without veining, tall grower and fine foliage, make a fine cut flower, \$7.50.

Joshua. This iris is in a class by itself and will be a favorite. S., clear red black; F., red black with no veining. The feature is the red black beard 26 to 28 in. tall, 4 to 6 flowers to stalk, \$7.50.

Winona. This is a pink iris of great beauty, foliage, heavy blue green, \$5.00.

Lorna Doone. Of all the plicatas, this iris stands distinctive and has a charm denied others. The petals are white, with a quarter inch border of solid pink, \$10.00.

Huron Wile. One of the finest Amoenas in cultivation S. pure white, F., Blade, velvety blue black, Haft, white; veined lengthwise with black; medium sized flowers, very free, \$5.00.

Guileless. This makes a fine garden clump. Its brilliancy is due to the heavy orange beard, the petals are a creamy pastel, \$5.00

Maid Huron. One of the best of it's color; S., Old rose; F., Rich velvety dark crimson, blended with old rose, \$3.00.

Meadow Lark. I like these blends

very much. This and the following **Harvestone** I believe will rate high in their class. (Class) "Ochracea Coerulea" "Rachel Fox" etc. Blue and buff blend, \$5.00.

Harvestone. S., Buff and yellow; F., pink and buff shading to yellow at edge, \$5.00.

Gray Voile an ash gray self, a good garden iris 24 in. tall and free, \$1.00.

Huron Regent. (Beardless.) Cuprea X; medium sized flowers of a deep mahogany red collar without veining, no plants for sale until 1926.

Weathered Sibirica A fine cut flower as all the Sibiricas are. All petals white, completely lined with soft blue giving the flower the effect of being a light blue self, \$2.00.

Dwarf Bearded Iris

General collection of dwarf bearded iris flowering usually in April, many are similar in color, they make a permanent edging of value. Plant the divided rhizomes about 4 in. apart in the row.

Descriptions are very brief. Full description will be formed in the bulletins of the American Iris society, Robt. Scurtevant, Sec., Wellesley Farms 95, Mass.

The bulletins give cultural direction for all the different species of iris and valuable information in regard to this beautiful family of plants.

Old Varieties

(Bearded)

This list represents the old and very old hybrid varieties, introduced before 1900. Also bearded species (collected) among which are some of the most beautiful iris we have.

Among the hybrids there are a few very beautiful things, not duplicated or surpassed by the newer introductions, tho many are extremely common place and only valuable to the student and enthusias-

tic collector.

Many iris growers are freely discarding these old iris. Still Mad. Chereau 1840 is holding a place. Honorable is valuable for the garden, for its free habit and good color.

I believe this collection is as true to name as records, data and years of checking can make it.

If you do not find the plant you wish in the preceeding list, you will probably find it in this one.

Descriptions as before are very brief, giving but a general idea of the color. Plants priced at 35c, two for 50c; priced 50c, two for 75c. Species are designated in bold type. Introducer's names are given where known.

Regelia-Cyclus

Karolkowi and Oncocyclus

This list contains the very best of this class of iris.

I have given them almost the same treatment as the "Pogomiris" except that I plant them on the south or east side of a building or wall and some protection during winter.

They are very free blooming plants of odd and beautiful colors.

Hoogiana is a beautiful clear blue of great substance.

I haven't a large surplus of any variety but can supply a few plants such to early applicants.

Hera. Robust growing S. and F, rich ruby red with bronze and blue lines, one of the most beautiful in this section. Visitors

claim this one to be the best, \$1.50.

Isis. Large flowers and vigorous red with gray and purple veining, \$1.00.

Jocaste. ...S, white, tinted red; F, silvery white with brown veining, \$1.00.

Kolyades. Lilac or violet, veined and lined purple, \$1.00.

Mars. Pale blue, dark blue veining, robust grower, \$1.00.

Orestes. Rich mahogany brown, \$2.00.

Osiris. S, silvery white, F, claret purple, \$1.00.

Parthenope. Lilac on a white ground, also purple veining, \$1.00.

- Psyche. White, veined with purple violet, black blotch, \$1.00.
- Adromache. Soft lilac white, veined and marked violet, \$1.00.
- Artemus. S, violet purple; F, dark violet, black blotch, \$1.00.
- Beatrix. Soft pearl gray, veined dark violet, \$1.00.
- Charon. A curious combination of colors, veined old gold and brown on a mahogany ground, \$1.00.
